

What else does the industry need to do to reduce the risk of AR?

Sheep Health &
Welfare Group

Control Sheep Scab!

Use the group 4 and 5 wormers NOW!

Group 4
(AD)
Monepantel
Orange
Drench

Group 5
(SI)
Derquantel +
abamectin
Purple Drench

Quarantine

Mid/late season treatment

Reduce reliance on anthelmintics for worm control.

- Grazing management
- Nutrition
- Monitoring
- Breeding
- Results of research say

tly

Act now – don't wait until the problem is obvious on your farm.

Use the technology available to drive change.

E.g. Improve lamb growth rates
